Subject: Fw: Some action items from the morning meeting

How's that for brevity?

And I presume that you'll provide Ft. Meade with names and station numbers?

We will provide contact info to Meade for our new ERT people. Of course this was always the plan since the SERAS guy will be our sampler coordinator and will be in constant contact with Meade.

For question #4 Dennis's suggestion is of course the correct answer.

I can answer question #2 - no. We have people that are not calling us back but no one has said 'no'

Ann (Breslin) DiDonato

Subject: Some action items from the morning meeting

1 - we need to get updates out by 1500 today, but none for the weekend (unless something happens). So, we should have our call at 1400.

2 - has anyone said no to us for sampling? Not PADEP or Cabot, but us?

3 - send Cindy Caporale the contact info for the ERT and SERAS people and she can coordinate with them.

4 - Fort Meade asks if there's any priority for QA review of data on the FTP site? If so, they could use a key with the names and our station numbers for the samples. Den suggested that, absent other direction, they should start with the first 21 (CO&A) and then the rest. Clarify with Fort Meade if you can.

That's it for now :)
